TOOL TORQUE

3/8" DR. ADJUSTABLE TORQUE WRENCH

- Made of steel alloy, 45 teeth, applie to narrow space.
- With easy-to-hold-and-apply-force-to handle.
- Warning at the predetermined torque value.
- Maximum erroneus precision: 3%
- Meet and exceed ASME B107.14.

PART #	SIZE	DRWE	LENGTH	
E0921	4.5-30Nm	3/8"	310.0mm	6

3/8" DR. ADJUSTABLE TORQUE WRENCH

- Made of steel alloy, 45 teeth, applie to narrow space.
- With easy-to-hold-and-apply-force-to handle.
- Warning at the predetermined torque value.
- Maximum erroneus precision: 3%
- Meet and exceed ASME B107.14.

PART #	SIZE	DRWE	LENGTH	
E0922	25-125Nm	3/8"	420.0mm	6

1/2" DR. ADJUSTABLE TORQUE WRENCH

- Made of steel alloy, 45 teeth, applie to narrow space.
- With easy-to-hold-and-apply-force-to handle.
- Warning at the predetermined torque value.
- Maximum erroneus precision: 3%
- Meet and exceed ASME B107.14.

PART #	SIZE	DRWE	LENGTH	
E0933	65-335Nm	1/2"	520.0mm	6

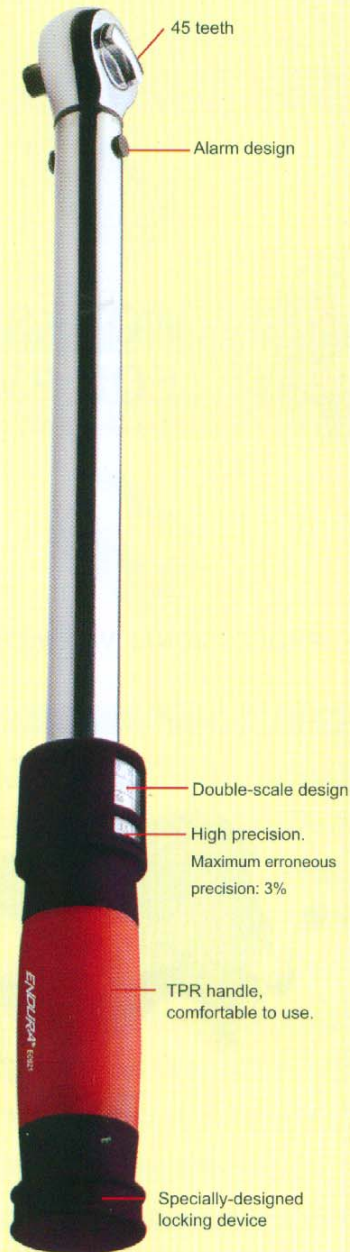

1/2" DR. ADJUSTABLE TORQUE WRENCH

- Made of steel alloy, 45 teeth, applie to narrow space.
- With easy-to-hold-and-apply-force-to handle.
- Warning at the predetermined torque value.
- Maximum erroneus precision: 3%
- Meet and exceed ASME B107.14.

PART #	SIZE	DRWE	LENGTH	
E0932	40-200Nm	1/2"	460.0mm	6

TORQUE WRENCH

- Steel alloy. Solid and durable.
- With comfortable and easy-to-use handle.
- Easy to adjust setting value.
- Used clockwise and counterclockwise.
- With readable and precise metric and imperial scale.
- Maximum erroneus precision: 3%.
- Meet and exceed ASME B107.14.
